

Phil Wright – Smiths Beach Master Plan

What steps are necessary from the community to work with Council to instigate a Formal Plan to manage the demand on Smiths Beach and its contribution to the BCSC Economy?

How to identify the short term priorities and commence their delivery?

The following seven projects may be the highest priorities:

- I. Develop a Master Plan including linkage, parking, vegetation, wildlife, landscapes and township boundaries.
2. Protection of remnant vegetation on coastal reserves,
3. Construction of a speed bump for cars entering the main car park,
4. Control and Manage of parking from AirBnB sites which now spills over to public footpaths,
5. Procurement of Town Square site (SW corner of Marlin / Smiths Breach Rd) which requires rezoning and sale of part of Mitchell to fund purchase
6. Construction of a Safe Pedestrian Crossing at Backbeach Rd intersection,
7. Construction of Pathways from Smiths Beach to :
 - a. Sunderland By,
 - b. Gap Rd.
 - c. Along Backbeach Rd to the racetrack.
