

Help Shape a Better Bass Coast

Community Engagement – Boating and Fishing

- Fix the Cowes boat ramp
- On Phillip Island we need better and more boat ramps , more parking and better fish cleaning facilities, nothing has been done for years
- How about some decent boat ramps the one at Inverloch is pathetic
- Better boating facilities at Corinella.
- Improved boat ramps. That is quantity .
- More infrastructure in the smaller villages like Coronet Bay (I.e. Boat ramp, walking trail upgrades, clearer signage). Need warning signs at the boat ramp to caution visiting jet skis about the laws related to the 5mph zone
- Improve boat ramps in Inverloch & Mahers landing.
- To have a good quality boat ramp at Anderson Street boat ramp Cowes. Presently you cannot launch your boat at or around low tide, this is unacceptable for a holiday destination.
- boat ramp reopened in Coronet Bay.
- Boat ramps . Open the Corronet bay boat ramp.
- New jetties for fishing.
- Current boat ramp needs improvement as it is only useful for light boats and jet skis at high tide
- Boat ramps - need improvements
- Boat ramp facilities to attract more tourism and improve safety. Either a new ocean ramp at Cape Patterson or a break wall built at Inverloch bar entrance.
- Grantville pier could be improved greatly.
- Jet skis are causing serious problems for swimmers in the water. Many operators are not familiar with the waters here and cannot determine the 200m from water edge 5mph zone. I suspect many operators also do not have valid licenses as they drive way to fast around swimmers (supposed to be a 50m 5mph zone). Afraid someone is going to be seriously hurt.
- As above , open up and take over boat ramp at Corronet bay.
- Mahers Landing boat ramp. There were plans for this to be built - what happened to it?
- Boat ramp in Coronet Bay reopened and improved
- money wasted on cowes boat ramp upgrade, on cowes boatramp carpark upgrade, on cowes boatramp jetty.
- Improve boating facilities, ramps etc. This is a huge opportunity take advantage of the huge growth in boating/fishing. Our ramp fees almost doubled yet most of our ramps are very

substandard with the Anderson st ramp & jetty redevelopment being an absolute joke & waste of money & unusable a lot of the time.

- As a waterfront resident I have seen many close calls with jet skis. I do not want them banned, I just believe that more information at the boat ramp is necessary and some method to help visiting jet skiers better understand the rules and determine safe distances. Hence I would like to see better signage and markers in the water (similar to the channel markers) to provide for safe family swimming.
- leave the Jetty Triangle alone. In all my travels I have never seen a pier without access to a car park.
- Would like to see more development to retain the foreshore at coronet bay, the original boat ramp reopened at coronet bay
- Coronet bay boat ramp is barely usable and embarrassing. Being one of the prettiest beaches along the bay having to rely on corinella's boat ramp and pay to launch a boat there is a joke also can wait up to 3 hours during snapper season to launch as it's so busy.
- Ban jet skis at Inverloch
- Signage at Mahers Landing - NO Jetskis on beach towards Invy
- an improvement of facilities/ boating/ parking so tourists feel welcome to come and spend their money in the Shire which will create more jobs in the area.
- Beach access is good. Discovery centre at Inverloch is good. Mahers Landing boat ramp is a bit flat.
- Off Beach dingy/sail boat facility independent to South Gippsland Yacht Club
- Control of jet ski at Anderson St boat ramp.
- Cleaning fish at Rhyll jetty is bringing in a lot of stingrays in the shallow water making it dangerous for swimmers
- Another boat ramp added at Corinella and improve the ramp at Grantville - it puts my husband off going fishing because of the wait.
- Improvements to the local boating facilities eg: jetty, market buoys, pull up points for boats to moor to be able to walk into town.
- boating facilities improved
- Jetty to break up the waves near the boat ramp (Inverloch) to make it safer.
- Safer and better designed boat ramps at Anderson Inlet
- Improve visibility of Inverloch boat ramp during high tide
- better boat ramp.
- Our waterway needs much more in the way of landing points right around the inlet. Jetties with water and power. Destination points where people can land and tie up their vessels. Navigation aids that are lit for night use of the inlet. Maher's Landing needs to be developed as a real ramp (all tide, all weather) to take the pressure off Inverloch ramp. The mouth of the Tarwin needs to be opened by dredging to allow all tide access into the river. Inlet entrance buoys replaced and updated regularly.
- Better boat ramps – Inverloch.
- Wooden deck for waiting to moor boats or sunbaking in Inverloch

- Re Coronet Bay **** ✓ - Re-establish old boat ramp ***
- The old kinder garden moved to Coronet Bay foreshore/boat ramp area to be used as an area for those monitoring boat movements in and out. *
- Boat ramp upgrade is a welcome change to Corinella infrastructure
- Reopen Coronet Bay ramp
- Better structured car/boat trailer parking along Beach Rd Rhyll
- Improve Jetty (see Geelong for example, encourages water activities for youth). I.e. not boat, fishing and kids jumping in one spot
- Weakness: Poor boating facilities at Inverloch which turns many tourists away as they are dangerous
- Weakness: Boat ramp poor policing means 80% of visitors do not pay the ramp fee and park their trailers out in the street
- Opportunity: Inverloch could be as good as Metung, Paynesville, Lakes Entrance but we have no facilities and own one real launch facility which is dangerous and inadequate
- Improve the boat launching facilities at the ramp. Currently nearly impossible and dangerous with fast moving tides and strong east /west winds. Pier only good for boating and crab netting * (I)
- Inverloch entrance bar – is a death trap – how can it be improved?
- Improve Boat Launching and retrieval facilities in Inverloch
- Visitors do not want to damage their boats at Inverloch Pier
- A real buoyage system on the inlet that is lit night Nav aids
- Open Tarwin River mouth for access. Mahers Landing boating facility
- Improve launching facilities town and Mahers Landing
- Anderson road Boat Ramp jetty. Trailer parking? (Charges doubled) **
 - Fish cleaning facilities
- New boat ramp at Anderson road
- Fix the boat ramp once and for all ✓✓✓✓
- More free activities such as skate park and boat ramp in Coronet Bay.
- Boat ramp - Coronet bay
- Old ramp should be reconstructed as early priority for boat launching.
- Grantville boat ramp.
- Boat ramp - Coronet bay
- boatramp re-opened Coronet Bay
- Acquire land to re-open second boat ramp.
- Strength: Fishing
- Coronet Bay boat ramp improvement or maintenance
- What is council doing about the Coronet Bay boat ramp/ramps? (a pre-election issue) *
- A display of Vines at High and Low Tides alongside the main road at the information centre, Newhaven – maybe illuminated in LED's.
