

This indigenous vegetation list is a guide to assist in selecting plants suitable for growing in the Blackwood Forest area. The list is based on the ecological vegetation classes (EVC) appropriate to the area. EVC's are useful in identifying the plant species suitable to area and specific growing conditions. To find out about your specific EVC, check the Biodiversity interaction map link: http://vro.agriculture.vic.gov.au/dpi/vro/wgregn.nsf/pages/wg_vegetation_res_evc_descriptions

The EVC's for this area are:

EVC 29 – Damp Forest

EVC 30 – Wet Forest

The list of plants below are the recommended species for your area. The list may not include all the species listed in the EVC's due to growing conditions in your area and/or the degree of difficulty to source.

There are a number of local nurseries that supply these species.

Trees

Common Name	Scientific Name
Gippsland blue-gum	<i>Eucalyptus globulus ssp. pseudoglobulus</i>
Manna gum	<i>Eucalyptus viminalis ssp. Viminalis</i>
Messmate stringybark	<i>Eucalyptus oblique</i>

Large Shrub or Understorey Tree

Common Name	Scientific Name
Blackwood	<i>Acacia melanoxylon</i>
Blanket-leaf	<i>Bedfordia arborescens</i>
Hazel pomaderris	<i>Pomaderris aspera</i>
Musk daisy-bush	<i>Olearia argophylla</i>
Silver wattle	<i>Acacia dealbata</i>

Medium Shrub

Common Name	Scientific Name
Common cassinia	<i>Cassinia aculeata</i>
Elderberry panax	<i>Polyscias sambucifolia</i>
Hop goodenia	<i>Goodenia ovata</i>
Prickly currant-bush	<i>Coprosma Quadrifida</i>
Shiny cassinia	<i>Cassinia longifolia</i>
Tree everlasting	<i>Ozothamnus ferrugineus</i>

Large Herb

Common Name	Scientific Name
Common bottle-daisy	<i>Lagenphora stipitata</i>
Ivy-leaf violet	<i>Viola hederacea sensu Willis (1972)</i>
Kidney-weed	<i>Dichondra repens</i>

Scrambler or Climber

Common Name	Scientific Name
Common apple-berry	<i>Billardiera scandens</i>
Love creeper	<i>Comesperma volubile</i>
Mountain clematis	<i>Clematis aristata</i>
Wonga vine	<i>Pandorea pandorana</i>

Grasses

There are many different types of grasses indigenous to this area. Here is a short list of suggestions.

Common Name	Scientific Name
Tasman flax-lily	<i>Dianella tasmanica</i>
Tussock grass	<i>Poa australis</i> spp. Agg.
Weeping grass	<i>Microlaena stipoides</i> var. <i>stipoides</i>
Spiny-headed mat-rush	<i>Lomandra longifolia</i>
Common tussock grass	<i>Poa labillardierei</i>
