Subject: Objection to subdivision in Dalyston

18th September 2020

To whom it may concern,

I am writing to inform of our desire to object against the proposed subdivision of:
200257: 3 McCauley View Drive
200258: 32 McRae Drive

[REDACTED]

Our reasons for objection are:

We bought in what was advertised and planned as a low density population area however this is in threat if these subdivisions go ahead, and will become a precedence for future development.

We should have been made aware of these intentions before making, for us, a huge life decision.

Traffic concerns, with a young family are also a concern for us, not to mention the possibility that these may become public housing in the future.

Valuation of our property will also become uncertain.

Thanks for our consideration.
