Objection to notice of application for planning permit - 200312 (13 Ventnor Blv, Ventnor Phillip Island )

Dear Bass Coast Shire council

We strongly object to the planned building - it is proposed to be built too far forward [REDACTED]  
[REDACTED]

[REDACTED]

As an aside, the permit has been deliberately placed on the far corner next to neighbour's tree so it is easily missed. clearly a deliberate strategy.

It should have been placed in the centre or close to the centre to stand out.

We nearly missed it. I suspect many neighbours have missed it too

Also it is not appropriate that the permit has been placed during lock down so neighbours won't be able to see it. Many of the neighbours don't live here and only come down on weekends and holidays. They should have been sent a letter by the council during this crisis.

[REDACTED]

We ask that the dwelling is moved back up the block.. [REDACTED]

Please confirm receipt of this email.
